FOREWORD

We are very pleased that Squalen, Bulletin of Marine and Fisheries Postharvest and Biotechnology is presenting its third issue, volume 12, year of 2017. This bulletin is part of the Research Center for Marine and Fisheries Product Processing and Biotechnology series of publications.

This issue contains 5 original research articles in the field of marine biotechnology and fisheries, i.e. Potential risk of organic contaminants to the coastal population through seafood consumption from Jakarta Bay, Prevalence of aflatoxin B1 in commercial dried fish from some regions of Java, Production of poly(3-hydroxybutyrate-co-3-hydroxyvalerate) by marine Archaea haloferax Mediterranei with yeast extract as nutrient source, Fungal community structure of Ulva intestinalis revealed by MiSeq sequencing, and Proximate composition and sensory characteristics of traditional and oven-drying smoked tilapia fillets enriched with olive oil.

We would like to thank Dr. Ario Damar, Ariyanti Suhita Dewi, PhD, Dr. Dwiyitno, Dr. Hedi Indra Januar, Dr. Jiang Li, Dr. Ocky Karnadjasa, Nurul Huda, PhD, and Prof. Dr. Wibowo Mangunwardoyo as reviewers for this issue.

As we were aware at the previous issues, a bulletin needs commitment, not only from editors but also from reviewers and the contributors. Without the support of our reviewers we would not dare to start and continue. Special thanks, also, go to the contributors of the journal for their trust, patience and timely revisions. We hope that this issue arouses our readers’ interest and may inspire new research and new findings which will then be published in our future issues of Squalen Bulletin.

AUTHORS GUIDELINES

SQUALEN: BULETIN PASCAPANEN DAN BIOTEKNOLOGI KELAUTAN DAN PERIKANAN
(SQUALEN: BULLETIN OF MARINE AND FISHERIES POSTHARVEST AND BIOTECHNOLOGY)

1. Scope: research paper, short communication and reviews in the field of postharvest, food safety and environment, and bio-
discovery of marine and fisheries. 

2. Language: English. It is preferable that manuscripts are professionally edited. The abbreviated name or expression should be
cited in full at first usage, followed by the accepted abbreviation in parentheses. Metric SI units should generally be used. 
Chemical formulas and solutions must specify the form used, e.g. anhydrous or hydrated and the concentration must be in
clearly defined units. Common species names should be followed by the Latin binomial (Italic) at the first mention. 

3. Manuscript: should be prepared max. 15 pages, double-spaced (except for title, tables, figures, and bibliography which is
prepared in single-spaced) in Microsoft Word on A4 paper, font (Arial 10).

Research Paper manuscripts should contain the following sections :

a. Title: brief, concise and informative, reflecting the manuscript material. Avoid the abbreviation and formula where possible. 
Author's name, institution, and address are written under the title. 

b. Abstract : a concise and factual abstract is required. The abstract should state briefly the purpose of research, the principle
method, result and conclusion. Non-standard or uncommon abbreviation should be avoided, but if essential they must be
defined at their first mention in the abstract itself. Abstract should not exceed 250 words. 

c. Key words: contain 3 to 5 words, referred from Agrovocs 

d. Introduction: state the background and objective(s) of the work, avoiding a detailed literature survey or a summary of the
results. 

Material and Methods: provide sufficient detail to allow the work to be reproduced. Methods already published should be
indicated by a reference; only relevant modification should be described. 

f. Results and Discussion: results should be clear and concise. Discussion should explore the significance
of the results of the work, not repeat them. Avoid extensive citation and discussion of published literature. 

Tables: Short, clear and must be able to stand alone. Table should have a title and number inequality and are placed above
the table, font (Arial 10). 

Figures and graphics: Prepared in appropriate pattern usable for black and white versions of all the color illustrations. 

Graphics should be prepared in MS Excel. Figure should have a title and number inequality. Figure and graphics title and
their explanation or notes are placed below the figures or graphics, font (Arial 10). 

Pictures/photograph: Prepared in contrast color or B/W. Pictures/photographs should have a title and number inequality. 

TIFF: color or grayscale photographs (halftones) always use a minimum of 300 dpi; bitmapped line drawings use a minimum
of 1000 dpi; combinations bitmapped line/halftone (color or grayscale) a minimum of 500 dpi is required. 

g. Conclusion: Concise considering the title, objectives and research results. 

h. Acknowledgement: Collate acknowledgements, if any, in separate sections at the end of the article before the reference and
do not, therefore, include them on the title page, as a footnote to the title or otherwise. 

i. Bibliography: Follow the APA (American Psychological Association) style referencing. References in the text should cite the
authors’ names followed by the date of their publication; unless there are three or more authors when only the first authors’
name is quoted followed by et al. e.g. Smith et al. (1999) or Jones & Smith (2000). References at the end of the paper should
be listed in the alphabetical order. Please ensure that every reference cited within the text is also present in the reference list
(and vice versa).

Latest and primary references at least 80% are strongly advised. 

a. Journal with DOI; b. Journal without DOI; c. Thesis or dissertation; d. Book Chapters 

44(1), 117-133. doi: 10.1007/s13225-010-0047-z 

sponge-derived fungus, Scopulariopsis brevicaulis. Journal of Natural Products, 71(1), 1052-1054. 

Prigent, S. (2005). Interactions of phenolic compounds with globular proteins and their effects on food related functional proper-

Review Paper manuscripts should be written as a continuous articles sub headings that reflect the matter discussed, not
necessarily the same as the sub heading of the research paper (Abstract, Introduction, Discussion, Conclusion, 
Acknowledgement, References).

4. Submission of manuscript: A soft copy of the manuscript should be submitted electronically by Open Journal System (OJS) at
website: www.bbp4b.litbang.kkp.go.id/squalen-bulletin. Manuscript should be uploaded as Word (.doc) files (not write-
protected) or/ and MS Excel for the figures or graphics. The text file must contain the entire manuscript including title page,
abstract, keywords, text, references, tables, and figures. All the manuscripts submitted to ’Squalen: Bulletin Pascapanen dan
Bioteknologi Kelautan dan Perikanan (Squalen: Bulletin of Marine and Fisheries Postharvest and Biotechnology)’ will be
reviewed by peer reviewers and editors. Manuscript submitted should not be submitted or under reviewed other journal. 

5. Manuscript which does not meet the above requirements will be rejected. 

6. Editor provides reprint for the author(s).
