FOREWORD

We are proud to present that the latest issue of the Squalen Bulletin of Marine and Fisheries Postharvest and Biotechnology has been published. Squalen Bulletin Volume 16 (3), December 2021, features five original research articles on the area of marine and fisheries post-harvest and biotechnology, i.e., Molecular Characterization of *Caulerpa racemosa* (Caulerpales, Chlorophyta) from Indonesia Based on the Plastid *tufA* Gene; Quality Changes in the Adductor Muscle of Ezo Giant Scallop *Mizuhopecten yessoensis* (Jay, 1857) during Refrigerated Storage; Nutrient Composition, Antioxidant and Antibacterial Activities of *Ulva prolifera* O. F. Müller; Isolation and Identification of Hydrocarbon-Degrading Bacteria from Polychaete *Marphysa moribidii* and Characteristics of Irradiated Hydrogel Formulated from Composite $\nu\kappa$ -carrageenan Combined with Polyvinyl Alcohol.

In October 2021, Squalen Bulletin was appointed as the official journal partner of the International Conference of Aquaculture Indonesia. The conference was organized by Masyarakat Akuakultur Indonesia (MAI) in collaboration with the Faculty of Fisheries and Marine Science, Universitas Diponegoro and was held on 28-30 October 2021 in Semarang, Indonesia. In November 2021, Squalen Bulletin was again partnered with the International Conference on Environment and Natural Resources: Solutions and Challenges (ENRSC2021). The conference was organized by Sultane Moulay Slimane University, Ecole Supérieure de Technologie and Al Akhawayn University on 24-25 November 2021 in Khenifra, Morocco.

On behalf of the editorial board, we would like to express our profound gratitude to the reviewers for insightful comments and constructive criticisms towards the published articles despite the uncertain times resulting from the current pandemic.

We hope these articles will be helpful for the readers and, in return, stimulate further studies on marine and fisheries post-harvest and biotechnology. Thank you for your continuing interest in our publication.

AUTHORS GUIDELINES
SQUALEN: BULETIN PASCAPANEN DAN BIOTEKNOLOGI KELAUTAN DAN PERIKANAN
(SQUALEN: BULLETIN OF MARINE AND FISHERIES POSTHARVEST AND BIOTECHNOLOGY)

1. Scope: research paper, short communication and reviews in the field of postharvest, food safety and environment, and bio-discovery of marine and fisheries.
2. Language: English. It is preferable that manuscripts are professionally edited. The abbreviated name or expression should be cited in full at first usage, followed by the accepted abbreviation in parentheses. Metric SI units should generally be used. Chemical formulas and solutions must specify the form used, e.g. anhydrous or hydrated and the concentration must be in clearly defined units. Common species names should be followed by the Latin binomial (Italic) at the first mention.
3. Manuscript: should be prepared max. 15 pages, double-spaced (except for title, tables, figures, and bibliography which is prepared in single-spaced) in Microsoft Word on A4 paper, font (Arial 10).

Research Paper manuscripts should contain the following sections :

- a. Title: brief, concise and informative, reflecting the manuscript material. Avoid the abbreviation and formula where possible. Author's name, institution, and address are written under the title.
- b. Abstract : a concise and factual abstract is required. The abstract should state briefly the purpose of research, the principle method, result and conclusion. Non-standard or uncommon abbreviation should be avoided, but if essential they must be defined at their first mention in the abstract itself. Abstract should not exceed 250 words.
- c. Key words: contain 3 to 5 words, referred from Agrovocs
- d. Introduction: state the background and objective(s) of the work, avoiding a detailed literature survey or a summary of the results.
- e. Material and Methods: provide sufficient detail to allow the work to be reproduced. Methods already published should be indicated by a reference; only relevant modification should be described.
- f. Results and Discussion: results should be clear and concise. Discussion should explore the significance of the results of the work, not repeat them. Avoid extensive citation and discussion of published literature.
 - Tables: Short, clear and must be able to stand alone. Table should have a title and number in sequence and are placed above the table, font (Arial 10).
 - Figures and graphics: Prepared in appropriate pattern usable for black and white versions of all the color illustrations. Graphics should be prepared in MS Excel. Figure should have a title and number in sequence. Figure and graphics title and their explanation or notes are placed below the figures or graphics, font (Arial 10).
 - Pictures/photograph: Prepared in contrast color or B/W. Pictures/photographs should have a title and number in sequence. TIFF: color or grayscale photographs (halftones) always use a minimum of 300 dpi; bitmapped line drawings use a minimum of 1000 dpi; combinations bitmapped line/halftone (color or grayscale) a minimum of 500 dpi is required.
- g. Conclusion: Concise considering the title, objectives and research results.
- h. Acknowledgement: Collate acknowledgements, if any, in separate sections at the end of the article before the reference and do not, therefore, include them on the title page, as a footnote to the title or otherwise.
- i. Bibliography: Follow the APA (American Psychological Association) style referencing. References in the text should cite the

Latest and primary references at least 80% are strongly advised.

- a. Journal with DOI; b. Journal without DOI; c. Thesis or dissertation; d. Book Chapters

Review Paper, manuscript should be written as a continuous articles sub headings that reflect the matter discussed, not necessarily the same as the sub heading of the research paper (Abstract, Introduction, Discussion, Conclusion, Acknowledgement, References)

4. Submission of manuscript: A soft copy of the manuscript should be submitted electronically by Open Journal System (OJS) at website: www.bbp4b.litbang.kkp.go.id/squalen-bulletin. Manuscript should be uploaded as Word (.doc) files (not write-protected) or/ and MS Excel for the figures or graphics. The text file must contain the entire manuscript including title page, abstract, keywords, text, references, tables, and figures. All the manuscripts submitted to 'Squalen: Buletin Pascapanen dan Bioteknologi Kelautan dan Perikanan (Squalen: Bulletin of Marine and Fisheries Postharvest and Biotechnology)' will be reviewed by peer reviewers and editors. Manuscript submitted should not be submitted or under reviewed other journal.
5. Manuscript which does not meet the above requirements will be rejected.
6. Editor provides reprint for the author(s).
